### TO DARKEN THE HAIR.

Who does not know of the value of  
sage and sulphur for keeping the  
hair dark, soft, glossy and in good  
condition. As a matter of fact, sul-  
phur is a natural element of hair,  
and a deficiency of it in the hair is  
held by many scalp specialists to be  
connected with loss of color and vi-  
tality of the hair. Unquestionably,  
there is no better remedy for hair  
and scalp troubles, especially prema-  
ture grayness, than sage and sulphur.  
If properly prepared. The Wyeth  
Chemical Company, 74 Cortlandt St.,  
New York City, put up an ideal prepa-  
ration of this kind, called Wyeth's  
Sage and Sulphur. It is sold by lead-  
ing druggists for 50c and \$1.00 a  
bottle, or is sent direct by the manu-  
facturers upon receipt of price. For  
sale and recommended by W. J. Gil-  
bert.

### \$25,000 SUIT

Against Fort, Ewing and Other Dark  
Tobacco Growers' Association  
Officials.

Clarksville, Tenn., Aug. 17.—  
Prominent members of the Dark To-  
bacco Growers' association living in  
Montgomery and Robertson counties  
are being summoned to appear be-  
fore the judge of the circuit court  
of the United States in the Sixth dis-  
trict on the second Monday in Oc-  
tober to answer A. H. Cardin, of In-  
diana, in an action for damages of  
\$25,000. The suit is the outgrowth  
of night rider troubles in this sec-  
tion.

Mr. Cardin was an independent  
tobacco dealer, and last year suffered  
severely at the hands of the riders if  
it is alleged. He removed to Indi-  
ana from Kentucky in order to insti-  
tute proceedings in the federal  
court. Among the defendants are  
President Charles H. Fort, of Ada-  
m, M. L. Bradley, chairman of the  
Robertson county branch of the as-  
sociation; Polk Prince, formerly  
chairman of the Montgomery county  
branch and member of the board of  
supervisors.

### Roman Camp in Wales.

In connection with the exca-  
vations of the great Roman camp at  
Caere, Montgomeryshire, Prof.  
Bosquet, who is in charge of the  
exploring party, has succeeded in  
opening up the western portion of  
the camp, unearthing a complete hot  
air system situated beneath the  
floors of the rooms. The floors were  
supported by a number of stone pil-  
lars two feet square and two feet  
high. Flues were laid beneath to  
carry the hot air from the furnace  
and these have been found in an  
excellent state of preservation. Out-  
side the huge rampart of clay the  
workmen have come across trenches  
which surround the camp. The  
granary has been opened up for its  
whole length and measures 93 1/2  
feet. This building was strongly  
built and was roofed with slabs of  
stone.—London Standard.

## BULL WHEAT SIDE POPULAR

**SENTIMENT ON THE MARKET  
CHANGED THE PAST WEEK.**

Prices On Corn Also Have Shown a  
Tendency to Soar Recently  
on Crop Reports.

### RECEIPTS CONTINUE LIGHT

Chicago, Aug. 17.—Pending the  
movement of spring wheat the trade  
was inclined to slow up a little on  
the short side of the market last  
week, with the result that there  
were moderate recoveries from the  
low point. While many of the lead-  
ers were still bearish in their views  
as to the ultimate course of prices,  
there were several factors which  
helped restore the equilibrium of the  
market, and worked for at least a  
temporary upturn.

The greater part of the week  
trading was mostly of a local scalping  
character, but the last two days  
there was a sudden change of front  
by the Patten house as well as sev-  
eral other big traders and heavy  
lines of December were accumulated  
taking the surplus off the market  
and tightening the situation materi-  
ally.

**Cash Prices Work Higher.**  
Cash prices for wheat in all posi-  
tions are high relative to the futures  
and the situation so far as winter  
wheat is concerned promises to be  
relatively strong throughout the  
year.

**Ingils Makes Bullish Estimate.**  
John Ingils places the spring  
wheat crop at 318,000,000 bu., or  
more than the government, but  
gives the winter wheat crop at only  
370,000,000 bu., a total of 688,000,  
000 bu. compared to a total given by  
the government of 725,000,000 bu.  
A few reports of black rust were re-  
ceived late in the week from the ex-  
treme northern portion of the belt,  
but were given little attention.  
Canadian conditions are generally  
favorable and weather conditions  
to the last few days have been such  
as to hasten the crop to maturity. The  
crop will undoubtedly be larger than  
a year ago, but Ingils estimating it  
at 132,000,000 bu.

**Drought Damage Is Claimed.**  
Corn prices have also shown a ten-  
dency to harden recently, and while  
the market has been a good deal of  
a weather affair with prices depending  
largely on the amount of rainfall, a  
healthier tone has developed, espe-  
cially in regard to the deferred  
months. The experience of these specu-  
lative trade in selling the farmers' corn  
for them in advance the last  
few years has not been a profitable  
undertaking. Receipts continue light  
and predictions were again hazarded  
that the September shorts will be in  
as serious a predicament as those in  
May or July. There is unquestion-  
ably a huge shortage still in the  
nearby delivery, and while a gener-  
ous run is expected the latter part  
of this month there are no present  
signs that the receipts will be bur-  
densome.

The crop is coming along fine and  
a record yield is indicated, but there  
have been many reports of damage  
as a result of lack of sufficient mois-  
ture, but probably no more com-  
plaints than usual. Pit sentiment is  
generally bearish, but country hold-  
ers of corn are not selling any more  
freely than heretofore. Fair accept-  
ances have been received for ship-  
ment late in the fall, but at present  
most of the corn coming is being  
consigned.

### SAY PINCHOT IS TO GET THE AX

Those Close to President Declare  
Forester Is Slated for Dismissal.  
Beverly, Mass., Aug. 16.—Chief  
Forester Gifford Pinchot is slated for  
appearance before the administration  
headsman as the result of the squab-  
ble he is now fighting out with Sec-  
retary Ballinger, of the interior de-  
partment.

This cannot be confirmed officially  
but those close to the president can  
see no other outcome.

Pinchot has opposed the Ballinger  
policies from the moment the latter  
entered the president's cabinet. Un-  
til the matter is brought officially  
to the attention of the president, the  
latter will not take a hand on one  
or the other. Matters seem to be  
fast approaching a crisis in the  
swap, however, and the move that  
will stir the president to action will  
in all probability be an official com-  
plaint registered against Pinchot by  
Ballinger.

### Only a King.

The king of Naples and his suite  
once visited a foreign man-of-war as  
it lay anchored in the bay. One of  
his suite, taking a wind-mill, which  
conveyed air through the hatchway  
to the lower deck, to ob a substan-  
tial pillar, leaned against it, and fell  
through the hatchway and broke his  
leg.

The officer of the deck did not see  
what had occurred. An old shell-  
back quartermaster rushed up to him  
and repeatedly touched his cap with-  
out receiving any recognition. At  
last the old fellow could stand it no  
longer, and shouted:  
"Please, sir, one of them kings has  
fallen down the hatchway."

Remarks clothed in fine language  
is seldom the naked truth.

### GOOD JOBS FOR MEN

Government Needs Postoffice Clerks,  
Carriers, and Railway Mail Clerks  
—Salary \$600 to \$1,000.

Why don't you work for Uncle  
Sam? Eight thousand positions are  
to be filled. The pay is large; the  
hours short; you get a vacation,  
with pay, every year, and no lay-offs  
at any time.

The government wants men over  
18 years old, with only common,  
everyday education to take examina-  
tions in Paducah on Nov. 17, for  
positions mentioned above, and the  
Government Civil Service Instruct-  
ors, with their expert knowledge of  
the examination can prepare any  
man to pass in a few weeks.

Any reader of the Paducah Even-  
ing Sun who wishes to work for  
Uncle Sam, can get complete free in-  
formation how to prepare for the  
Civil Service examinations, by writ-  
ing the Government Civil Service In-  
structors, Dept. 826, Rochester, N. Y.

## WHO WILL HEAD COUNTY SCHOOLS?

**PATRONS ARE SPECULATING ON  
THE NEW SUPERINTENDENT.**

Professor Billington Is Going West  
to Locate; Judge Lightfoot Is  
to Appoint Successor.

### MIDDLETON MAY GET THE JOB

Although the resignation of Prof.  
S. J. Billington, county school super-  
intendent, who is going to locate out-  
west, has not been handed in, much  
speculation is heard among people  
interested in the county schools as  
to whom County Judge Lightfoot will  
appoint. The appointee will  
serve only four months as in Janu-  
ary the new term of office will be-  
gin. Several school teachers it is  
said have their eyes on the job even  
for the short time of four months.  
W. A. Middleton, who is a law prac-  
titioner, is spoken favorably of  
by Mr. Billington, is spoken favor-  
ably as the man who will get the  
office. Middleton has been a school  
teacher and was elected principal of  
the consolidated school. L. W.  
Peetor, the Democratic nominee for  
the office, is spoken of for the place,  
while the name of Prof. J. S. Rags-  
dale, who was elected principal of  
the county high school, is heard con-  
nected with the appointment. It is  
probable that County Judge Light-  
foot will announce his appointment a  
short time before September 1,  
when Superintendent Billington will  
leave for Montana to reside.

### WILL FLY ONLY IN GERMANY

Wright Does Not Expect to Perform  
in Other Parts of Europe.

London, Aug. 17.—Orville Wright,  
who arrived here today from New  
York, will spend only twenty-four  
hours in England. He is going on  
to Germany tomorrow. He will not  
be able to do anything in the flying  
line here. Although his aeroplanes  
are completed, the motors for them  
have not yet been delivered.

So far as Mr. Wright knows, the  
only flying he will do in Europe will  
be in Germany. He may possibly re-  
turn to England on his way home.  
He has received no communication  
from the British war office, and no  
arrangements have been made for a  
meeting between him and British  
officials, as has been reported in  
some quarters.

### Chilian Drunkards.

No modern tropical people perhaps  
except the Chilians, are outright  
drunkards. People often talk of the  
temperance Mediterranean peoples.  
As a matter of fact, many men in  
Latin America die in middle life from  
heart and circulation diseases—of a  
type rarely seen here—from exces-  
sive and continuous consumption of  
coffee and cigarettes.—New York  
Press.

Sum peepel don't put down their  
expensive habits til they ain't got  
nothing left to put up.

## DON'T PAY

Fancy prices for index filing  
cards and loose-leaf ledger  
sheets. We furnish any ruling  
for any binder or file case. We  
sell the best loose leaf system  
in America. Ask to see it.  
All kinds of paper, cardboards  
and envelopes for sale—plain  
or printed.

**SUN PUBLISHING CO.**  
(Incorporated.)  
113-115 South Third Street.  
PADUCAH, KY.

He who has no heroes is funda-  
mentally deficient in reverence.

## BALLINGER MUST ANSWER PINCHOT

**TWO SENATORS WANT AN IN-  
VESTIGATION.**

For Maintaining Press Bureau—  
House After Ballinger—Inquiry  
Will Develop Integrity.

### PINCHOT IS BEING ABUSED

Washington, Aug. 17.—The politi-  
cians in Washington regard the fight  
between Chief Forester Pinchot and  
Secretary Ballinger of the interior  
department as of prime importance  
for two special reasons. One is that  
it involves the integrity of a member  
of the president's cabinet, and the  
other that it arranges a Roosevelt  
policy squarely up against a Taft  
policy, if President Taft is sustain-  
ing Secretary Ballinger.

It occurs to politicians here that  
he question is easy of solution, be-  
cause it involves questions of fact  
of administrative policies. What is  
desired to be known is on what  
theory did Secretary Ballinger re-  
verse what President Roosevelt did,  
the latter's contention being that he  
was withdrawing millions of acres  
from the grip of corporations as  
against "common settlers."

Mr. Pinchot has stated plainly  
enough why President Roosevelt and  
Secretary Garfield desired to save  
the lands in question. It appears to  
be clearly up to Secretary Ballinger  
to explain to President Taft, and  
that the president should make a  
statement justifying the action of  
Mr. Ballinger.

One of the significant develop-  
ments of the Pinchot-Ballinger al-  
legations of implied scandal is that  
"two senators are already after Mr.  
Pinchot with a view to having him  
investigated."

It has been stated that Mr. Ballin-  
ger had a personal quarrel with  
this one and that one, that he did not  
like Mr. Pinchot and so forth, and  
these are gravely stated as the rea-  
sons why hundreds of thousands of  
acres of public land should be so  
manipulated that corporations got in  
first and gobbled up the water pow-  
ers. The opinion here is that this  
proposition is refuted the moment it  
is started.

Mr. Pinchot has some enemies in  
the department of the interior. He  
is being abused for maintaining a  
press bureau. The offense in this is  
that he kept the newspaper people  
advised of what was going on in his  
department every day.

### PALATIAL DOLL'S HOUSE.

Has Electric Lights and Telephone  
and All Modern Conveniences.

There are children who have their  
own railroads and play pavilions,  
but it is not on record that any lit-  
tle girl has a doll's house fitted with  
every modern idea, including the  
telephone and electric lights, says  
the Chicago Inter-Ocean.

At the exhibition opened at the  
Newman art gallery there is a fa-  
mous monster doll's house which has  
an international history.  
It was the toy of Miss Willis,  
daughter of the governor of a jail,  
for whom it was made by one of the  
most desperate prisoners, an ex-  
cubist maker.

The criminal's regeneration, it is  
said, dated from the moment when  
he was induced to use his ability in  
the making of the doll's house,  
which he constructed in 1880. The  
house has since been fitted up to its  
present perfection by Miss Willis.

This palatial residence owned by  
Miss Willis and her family has sun-  
dries, as well as curtains and win-  
dow boxes.

Included in the building there is  
a drawing room with a piano, a  
dining room, bedroom and nursery,  
and there is also a shrub garden in  
front.

The exhibition, which was opened  
by the lady mayors, is illustrative  
of the fact that dolly boasts a very  
ancient lineage.

There are early Egyptian dolls in  
a quaint group dated 1000 B. C.,  
while in contrast with them is the  
extremely up-to-date collection of  
tiny aeroplanes, guaranteed to fly.

Children would be interested in  
shuttlecock played, not with a battle-  
dore, but with the foot, in Chinese  
fashion. The Chinese shuttlecock is  
made of snakeskin and weighted  
with cash.

### Unique Burglar Alarm.

An ingenious scheme of burglar  
protection employing specially de-  
signed curtains and portiers has been  
invented by a Dresden engineer.  
The curtains and portieres are made  
of any of the materials used for  
such purposes, and wired with  
fine conductors. At certain places  
on the curtains are affixed small  
metal knobs, connected with the wire  
conductors. When drawn across a  
window or door, or around a safe  
or vault, the slightest disturbance of  
their position immediately breaks the  
circuit, as the metal knobs are thus  
thrown out of contact with each  
other. Should the intruder notice  
the wires and cut one or more of  
them, his action would break the  
circuit and start the alarm.—Popular  
Mechanics.

He who has no heroes is funda-  
mentally deficient in reverence.

## CURRENCY CHANGES

**SECRETARY MACVEAGH PRO-  
POSES PLAN.**

Declares America's Best Artists  
Should Be Employed to Design  
Paper Money.

Dublin, N. H., Aug. 17.—With a  
gigantic scheme for the reformation  
of the currency, especially the paper  
currency, of the whole world, Frank-  
lin MacVeagh, secretary of the treas-  
ury, is busy at his beautiful New  
England home studying the details of  
his plan.

When he returns to Washington in  
the fall he intends to make a great  
effort to have the representative finan-  
ciers and statesmen of the civilized  
countries of the globe meet and dis-  
cuss for the first time a plan for the  
uniform size, color and denomination  
of the currency.

"Money goes everywhere," said  
Secretary MacVeagh, as he sat at  
work in his home in the hills near  
here. "A nation is known first by its  
currency."

"I want America to follow the  
model of the French and give her  
best work to her paper money, that  
the world may know that we have

artists, that we know art, that we ap-  
preciate it and that we value it."

"In my new scheme I recommend  
new designs. That is, the designs at  
present on our bills are, of course,  
too large and unwieldy for the more  
graceful small bills. That means  
new designs. For this the country  
cannot do better than employ her  
greatest artists."

"Then, I want the portraits to be  
uniform; every note of a certain de-  
nomination shall have a certain por-  
trait on it, no matter whether the  
note is national or bank currency."

"Thus, when the portrait of Cleve-  
land, a beautiful innovation of Mr.  
Cortelyou, is seen every one will in-  
stantly know that the note is a \$10  
one, nothing else. This will save  
constant confusion."

"A certain color should also indi-  
cate the denomination of a note.  
Thus, green might always indicate to  
a person unable to read that the  
note is a \$1 note; red, a \$2; blue, a  
\$5, and so on, whatever the color  
might be."

"I heard Mrs. Climber boast the  
other day that she was very high  
born. I don't believe it."  
"Oh, yes, she was. She was born  
on the top floor of a twelve-story  
tenement."—Baltimore American.

There are now four permanent ice  
rinks in Europe—in London, Paris,  
Munich and Berlin. In the Berlin  
rink over one thousand persons can  
skate at one time without crowding

### DRIVING

comes first among outdoor recrea-  
tions. Cupid's greatest conquests of  
love are made in carriages, and in-  
valids court health the same way.  
Our turnouts of all kinds are the  
smartest, and roadsters that can give  
the dust to our horses are hard to  
find in this town. Make yourself  
solid with somebody by calling at our  
livery and engaging the means of a  
spin.

### THE TULLY LIVERY COMPANY
